

MICROPOLE BELUX BECOMES A PARTNER OF ONESTREAM

OneStream Software and Micropole BeLux announce their partnership to help organizations conquer complexity and drive finance transformation across EMEA. This new partnership is the first of more to come in the expansion of the current Enterprise Performance Management offering by the Finance Transformation & Performance Center of Excellence, under the leadership of Nico Sacré.

◀ PRESS RELEASE

A new partnership

Zaventem, 18 October 2023. Micropole BeLux, a branch of the Micropole Group, a consultancy company specializing in digital transformations and innovation through data, is proud to announce a new partnership with Onestream Software. As an official Silver Level Partner we look forward to transform Corporate Performance Management (CPM) processes for all organizations in Belgium and Luxembourg. This new partnership will provide industry-leading software and implementation expertise while driving efficiency in the Office of Finance.

About Onestream

OneStream provides a unified, platform that simplifies and aligns financial consolidation, planning, reporting, analytics and financial data quality. OneStream eliminates the risk and complexity of data integration, validation and reconciliation between multiple products, applications or modules, and makes non-integrated CPM suites a thing of the past.

Roderick Van Caspel, Sales Director, Benelux OneStream Software:

“We are thrilled to announce our partnership with Micropole BeLux and extend our presence around the globe. Each OneStream partner undergoes rigorous training to ensure full compliance with our mission of 100 percent customer success. We believe that a strategic partnership with Micropole BeLux is ideal for the evolving needs of our customers on a global scale and together we will provide our shared customers with an Intelligent Finance platform that eliminates inefficiencies and allows them to Lead at Speed.”

Nico Sacré, Director Finance Transformation & Performance :

“Many solutions claim to have a platform, but in reality turn out to be separate components that integrate with each other. This means the data is still duplicated with all the drawbacks associated with it (time to duplicate, security, performance, governance...). Having a solution like Onestream in our portfolio allows us to offer the customer a ‘one-stop-shop’ solution for consolidation, planning, ESG & monthly reporting with a perfect connection to the source systems.”

The future

This strategic partnership provides our current clients with a new solution and perfectly complements our existing Enterprise & Corporate Performance Management offering. We're excited to advise and consult with our clients on this new platform and deliver even better CPM experiences across many organizations in all possible industries.

ABOUT MICROPOLE | belux.micropole.com

Micropole is a consulting company specialized in Data. Our mission is to work together with our clients to stay one step ahead of disruption by exploiting the full potential of Data.

Our 1,300 expert consultants, in both Europe and China, help organizations understand the challenges of transforming their businesses and/or sectors of activity through Data.
